

AUTO ANSWER/MUTE BUTTON

Use with the handset down and the speakerphone off.

Feature available on Intercom calls only.

Feature applies to all systems on multi-line system speakerphones.

INTERCOM: VOICE CALL	INTERCOM: RING	MUTE
<p data-bbox="230 630 609 714">Press the AUTO ANSWER key, Light Turns ON</p> <p data-bbox="230 756 609 1192">Intercom Calls to your station will voice announce. Your phone will beep and the caller (from another station only) will speak to you over your speaker. You may talk back hands free.</p>	<p data-bbox="609 630 998 714">Press the AUTO ANSWER key, Light Turns OFF</p> <p data-bbox="609 756 998 1192">Intercom Calls to your station will ring. You will need to answer the call with the handset or speaker phone.</p>	<p data-bbox="998 630 1380 756">This feature only works when on the speakerphone.</p> <p data-bbox="998 756 1380 1192">Press and it turns the microphone on or off <u>when on a speakerphone conversation</u>. Light blinks to indicate the other party cannot hear you. Pressing again turns the microphone back on and the other party can hear you.</p>
